Carl Bryant, CC Cambell-Rock Steve Zeltzer, Sureya Sayadi for KPFA Local Station Board

- ? Are you concerned with the declining listenership of KPFA?
- ? Are you satisfied with the quality of news at KPFA?
- ? Are you satisfied with the amount of quality public affairs programming?
- ? Are you satisfied that community programming input is really representing the community and labor?

A Program to Rebuild KPFA and Pacifica

1. More community-based reporters with news bureaus in the S. Bay, N. Bay, Fresno and Sacramento. Re-organize the KPFA news department to get more in depth news reporting. Use the Workers Independent News WIN feed which can be used for free.
2. Better utilize KPFB by using internet technology, allowing new programs on housing and tenants rights and other community issues. Use video streaming.
3. Re-establish the Women's and 3rd World departments.
4. Establish a Labor Department with voices of the rank and file and leaders of unions.
5. Bring back the monthly *Folio* in print and on line with interactive feedback on programming, encouraging more feed-back from the community,
6. Stop the destruction of the Program Council and Unpaid Staff Organization. Open up the Program Council meetings to the public. Programmers and managers shall not have a vote.

7. Support the establishment of a Pacifica New Orleans station affiliate. Support the proposal made to the Pacifica National Board by KPFA to establish an affiliated station in New Orleans. The survivors of Katrina are clamoring for real news, and every day survival is a struggle. Their radio stations are controlled by corporations and the religious right.

8. Live programming during important national and international events like the Jena Protest and international protests against the wars in Iraq and Afghanistan. Use the expansion of Democracy Now! to community cable and the internet as a model for Pacifica nationally. We need to have national programming days on all Pacifica stations for Women's Day, Labor and May Day, Earth Day, MLK's Birthday and LGBT days.

9. Solve the growing financial crisis at Pacifica by bringing back more community programming based on community programmers. More controls on the \$4.5 million budget of KPFA.

10. Semi-annual community meetings for the KPFA membership, as are required by the KPFA bylaws. Post the Local Station Board minutes on the KPFA web page on a regular basis. Post the Pacifica National Board minutes and actions on their website.
